### MUNICIPAL MANAGERS QUALITY CERTIFICATE

I, Anneleen Vorster, in my capacity as the Accounting Officer of Prince Albert Municipality," certify that the mid-year report for the period ending December 2019 has been prepared in accordance with the Local Government: Municipal Financial Management Act 56 of 2003 and the Regulation made under the Act.

NAME & SURNAME:	ANNELEEN	VORSTER
DATE:	24:01:2	020

SIGNATURE:

MUICIPAL MANAGER OF PRINCE ALBERT MUNICIPALITY WC052

### **MAYORS REPORT**

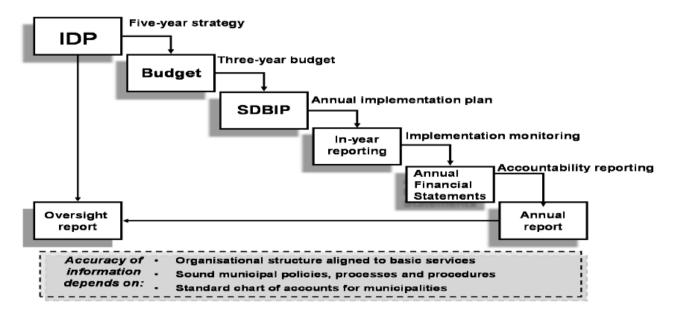

### **Budget Process:**

Section 53(1)(a) of the MFMA stipulates that the Executive Mayor of the Municipality must provide general political guidance over the budget process and the priorities that must guide the preparation of a budget.

The flowchart on the budget process basically reflecting three different processes in the budget cycle at the same time, namely:

- Reporting on the previous year budget;
- Current year budget implementation; and
- Preparation of the new financial year's budget (including the budget estimates for the two outer financial years)

The municipal planning and budget cycle processes consist of the following:

For the period under review that is the month ending 31 December 2019 the following MFMA related activities was successfully complete as per legislative requirements:

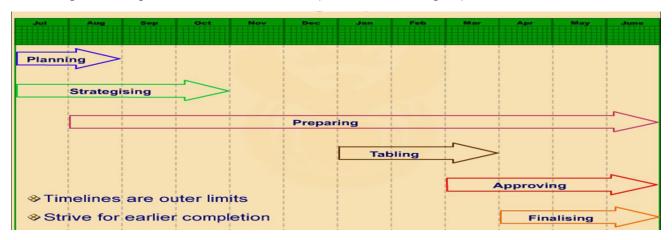

### December 2019

- Submit all monthly MFMA section 71 reporting.
- Submission of the information as required in terms of the new mSCOA Regulation to National and Provincial Treasury.
- New Service provider (Vesta) in process of implementing various software required for functioning of mSCOA regulations.
- Verification of audited information and reconciliation of information submitted via the different National and Provincial treasuries platforms.

### Budget planning process 2019/2020

Administration is in the process of planning the budget process for the 2020/21 Draft and Annual Budget through community public participation and sector engagements. This will be done as per the budget timetable approved by council during the August 2019 council meeting and in support of the Joint District Approach.

Following the Budget Process Timeline in respect of the budget year under review:

### **Monthly Reporting:**

Monthly financial reporting as per DoRA and MFMA requirements to Council, National & Provincial Departments and other stakeholders have been adequately adhered to for the period 1 July 2019 – 31 December 2019. Though not all reports were submitted on time, this was remedied in a speedy and accountable manner and can be ascribed to the challenges with changing from one accounting IT system to another. Provincial and National Treasury were kept abreast of all challenges experienced and the remedial actions undertaken to address these challenges.

### Financial Statements for the Year-ended 30 June 2019

The municipality received an unqualified audit opinion (clean audit) for the 2018/2019 financial year.

### 1. INTRODUCTION

### 1.1 PURPOSE OF REPORT

The purpose of this report is to submit to the Executive Mayor and Council a report in terms of the legislative requirements and regulations of Section 11(4(a), 52((1)(f), 66 and 72 of the Municipal Finance Management Act No 56 of 2003, hereafter referred to as the MFMA, as well as the relevant budget regulations.

Section 11(4) (a) stipulates that the accounting officer must within 30 days after the end of each quarter table in the municipal council a consolidated report of all withdrawals made in terms of subsection 1(b) to (j) during that quarter.

Section 52(d) stipulates that the mayor of the municipality must, within 30 days of the end of each quarter, submit a report to Council on the implementation of the budget and the financial state of affairs of the municipality.

Section 54(1) stipulates that on receipt of a statement or report submitted by the accounting officer of the municipality in terms of Section 71 or 72, the mayor must:

- (a) Consider the statement or report;
- (b) Check whether the municipality's approved budget is implemented in accordance with the service delivery and budget implementation plan;
- (c) Consider and, if necessary, make any revisions to the service delivery budget implementation plan, provided that revisions to the service delivery targets and performance indicators in the plan may only be made with the approval of Council, following approval of an adjustment budget;
- (d) Issue any appropriate instructions to the accounting officer to ensure-
  - (i) That the budget is implemented in accordance with the service delivery and budget implementation plan; and
  - (ii) That spending of funds and revenue collection proceed in accordance with the budget;
- (e) Identify any financial problems facing the municipality, including any emerging or impending financial problems; and
- (f) In the case of a Section 72 report, submit the report to the Council by 31 January of each year.

Section 66 stipulates that the accounting officer of a municipality must, in a format and for periods as may be prescribed, report to the council of all expenditure incurred by the municipality on staff salaries, wages, allowances and benefits, and in a manner that discloses such expenditure per type of expenditure.

Section 72(1) (a) of the MFMA prescribes that the accounting officer of a municipality must by 25 January each year assess the performance of the municipality during the first half of the financial year taking into account:

### 2019/20

- (a) The monthly statements referred to in section 71 of the MFMA for the first half of the financial year;
- (b) The municipality's service delivery performance during the first half of the financial year, and the service delivery targets and performance indicators set in the service delivery and budget implementation plan;
- (c) The past year's annual report and progress on resolving problems identified in the annual report; and
- (d) The performance of every municipal entity under the sole or shared control of the municipality, taking into account reports in terms of section 88 of the MFMA from any such entities.

In terms of section 72(1)(b) of the MFMA, the Accounting Officer must also by 25th January of each year submit a report on such assessment to the mayor of the municipality, National Treasury and Provincial Treasury. Once the Mayor has considered the report, it must be submitted to Council by 31 January in terms of Section 54 of the MFMA.

Section 72(3) of the MFMA further states the accounting officer must, as part of the review:

- (a) Make recommendations as to whether an adjustment budget is necessary; and
- (b) Recommend revised projections for revenue and expenditure to the extent that this may be necessary.

The mid-year performance reports and supporting tables of Prince Albert Municipality is prepared in accordance with MFMA Circular 13 and the Municipal Budget and Reporting Regulations, to illustrate the performance in graphical and tabular format as per Annexures E to G.

### 1.2 Organizational performance overview

The Prince Albert Municipality is proud to report that Annual Financial Statements for 2018/19 was drafted in-house and was sent to three different consultants for review purposes. An unqualified audit opinion (clean audit) has been expressed for said year. The Auditor General indicated that the financial statements of the Municipality were fairly represented in all material aspects as it reflects the financial position of the Prince Albert Municipality as at 30 June 2019 and its financial performance and cash flows for the year then ended.

At present Prince Albert Municipality have 101 positions on the organogram of which 90 is funded, with a vacancy rate of 22% at the end of December 2019. The organogram was approved on 20 June 2019 and will again be reviewed early in 2020.

A Senior Operational Manager was appointed in August 2020. This appointment is disputed by the MEC of Local Government, Environmental Affairs and Development Planning, Western Cape.

### 2019/20

Council will continuously strive to fill the critical positions identified on the organogram to ensure continuous, equitable and sustainable service delivery. Capacity constraints and financial resources remains a challenge especially to a rural municipality such as Prince Albert who do not have a broad revenue base and whose debt collection efforts is severely hampered by having three of their towns located in the Eskom service delivery areas.

Prince Albert Municipality tried to fill capacity gaps by making use of internship programs. At 31 December 2019 Prince Albert had one HR intern, subsidized by the Department of Local Government, Environmental Affairs and Development Planning, one Misa civil engineering intern, one graduate from the Department of Environmental Affairs as well as four financial interns. The MISA intern on town planning's contract lapsed at the end of November 2019.

The Municipality makes extensive use of Expanded Public Works Programme, Community Works Programme and Prince Albert Advice Cooperation participants on beautification and ad hoc service delivery initiatives.

### 2. BUDGET PERFORMANCE ANALYSIS

### 2.1 OPERATIONAL EXPENDITURE AND REVENUE PERFORMANCE

Approximately 47% of the original budgeted operating expenditure of **R70 892 440** was spent as at the end of December 2019 and 52.50% of the original projected revenue of **R70 893 030** was raised. The reasons for major deviations are explained in paragraphs (i) and (ii) below and in the Section 71 In-year Financial Report for the period ended 31 December 2019 that is attached as **Annexures A and B**.

Indications are that an adjustments budget will be required as there are numerous variances in expenditure and revenue items that need to be addressed in the final adjustments that must be approved by Council by the end of January 2020.

Items of revenue and expenditure with major deviations from the budget are as follows:

### **REVENUE**

### **INCREASE IN REVENUE**

Revenue source and reason for such decrease	Total original budget for 2019/20	Actual as at 31 December 2019	% Variance from expected 50%
socii deciedse	R'00	expected 30%	
Interest received	2,560	1,767	69%
Traffic Fines	3,089	774	25%

The slow spending on capital projects have caused higher than expected bank balances. The slow spending on capital expenditure can be ascribed to challenges in terms of obtaining Environmental Approval on the Waste Water Treatment Works in Klaarstroom as well as challenges where the bidding came in well in excess of the approved budget in respect of the Prince Albert Sport Precinct project.

### 2019/20

Traffic income is lower as the Municipality just have one official on its staff establishment that can undertake speed law enforcement. The other official was in the process of a disability claim which was finalized in December and the position was subsequently advertised for filling in 2020.

### **DECREASE IN REVENUE**

There was no decrease in revenue. The expenditure on the transfers recognized was slow for reasons indicated below.

Also refer to **Annexure E, Table C5** for more detail.

### Customer Base as on 31 December 2019

Prince Albert Municipality has a limited rates and service base. Below the customer base is reflected as on 31 December 2019.

Number of customers	
Number of accounts	4276
Properties on valuation roll	4962
Number of water meters	2821
Number of electricity meters (1+2)	2631
Number of prepaid electricity meters (1)	2371
Number of conventional electricity meters (2)	260
Number of rates clearance request received	4
Number of rates clearance issued	4
Number of accounts open during the month	2
Residential	2
Commercial	
Agricultural	
Other	
Number of accounts closed during the month	2
Residential	2
Commercial	
Agricultural	
Other	

### **OPERATIONAL EXPENDITURE**

### **DECREASE IN EXPENDITURE**

There was no decrease in expenditure and expenditure is in line with budgeted projections.

Expenditure item and reason for such decrease	Total original budget for 2019/20	Actual as at 31 December 2019	% spent
JUCII GECIEUJE	R'000		
Employee related costs	24,675	11,052	45%
Bulk purchases	12,124	6,253	52%
Other expenditure	11,019	3,707	34%

The Municipality had a vacancy in terms of a Section 56 appointment as well as a vacancy in the traffic department that is subject to a disability claim and this as well as normal movement on the staff establishment resulted in a slightly lower than expected employee related cost.

It should be noted that the expenditure is usually slower within the first six months with faster expenditure in the second half. The Housing funding is part of the operational budget and will be spend in the third quarter.

It is recommended that the above variances be rectified where needed, in an adjustment budget.

Also refer to Annexure A and B.

### 2.2 CAPITAL BUDGET PERFORMANCE

The capital expenditure as at the end of December 2019 is **R1 371 092**, excluding committed costs (orders issued), which is **6%** of the budgeted amount. The slow capital expenditure is due to the fact that the process was slowed in obtaining environmental authorization as well as the fact that when the procurement processes were followed, the tenders received was nearly R12 million in excess of the approved budget. In the case of the Water Treatment Works in Klaarstroom the Municipality obtained additional funding in December from the Department of Local Government and increased their co-funding contribution to cover the shortfall. This project is thus proceeding.

The primary capital project, the Sport Precinct Development, saw a shortfall of nearly R10 million against the approved budget. The Municipality pre-emptively engaged the Municipal Infrastructure Grant offices to warn about the challenges and indicate that a roll-over of funding will be needed.

### 2019/20

The challenges experienced with tenders exceedingly nearly half of the budgeted amount will require an urgent and in-depth discussion on the root causes, starting with business plans, quality of service providers and inter-governmental support structures.

### SERVICE DELIVERY PERFORMANCE ANALYSIS

### **CREATING A CULTURE OF PERFORMANCE**

### (I) PERFORMANCE FRAMEWORK

Regulation 7 (1) of the Local Government: Municipal Planning and Performance Management Regulations, 2001 states that "A Municipality's Performance Management System entails a framework that describes and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organized and managed, including determining the roles of the different role players." This framework, inter alia, reflects the linkage between the IDP, Budget, SDBIP and individual and service provider performance.

The municipality adopted a performance management framework that was reviewed and approved by Council on 10 April 2018.

### (II) IMPLEMENTATION OF PERFORMANCE MANAGEMENT

The IDP for 2019/20 was compiled and approved by council on 30 May 2019 per Council resolution 51/2019 with the budget for 2019/20 approved by Council on 30 May 2019 per Council resolution 51/2019. The time table and process plan for the compilation of the IDP, budget and SDF was approved by Council on 30 August 2019 per Council Resolution 102/2019. The organizational performance is evaluated by means of a municipal scorecard (Top Layer SDBIP) at organizational level and through the service delivery budget implementation plan (SDBIP) at directorate levels. The Municipality cascaded performance management down to all permanent staff during the first semester of 2019/20 financial year. This was done in house as a first round of roll-out where all permanent staff signed performance contracts. No remuneration is attached to the performance management of the lower levels.

The SDBIP is a plan that converts the IDP and budget into measurable criteria on how, where and when the strategies, objectives and normal business process of the municipality is implemented. It also allocates responsibility to directorates to deliver the services in terms of the IDP and budget.

The SDBIP were prepared and the Top Layer SDBIP was approved by the Executive Mayor and tabled at Council on 28 June 2019 and the Departmental SDBIP by the Municipal Manager shortly after.

The SDBIP performance Top Level is attached as an Addendum to this report, with corrective actions where needed.

### 2019/20

The Municipality received Provincial funding to develop standing operating procedures focusing on the operational performance of the Municipality. This project will commence in the third quarter of the financial year.

### (III) MONITORING PERFORMANCE

Monitoring of performance takes place as follows:

- i. Quarterly performance reports are tabled to Council.
- ii. Monthly performance reports should be submitted and discussed with the Executive Mayor, but has not been done due to further development and refining of the performance management model. It is envisaged that monthly reports will be generated from the beginning of the third quarter going forward.
- iii. Internal Audit (Consultant) has developed SOP's that form the basis for all future audits on predetermined objectives. It is envisaged that the new and reviewed SOP's document will be signed by all the relevant role-players before the end of the third quarter.

### (IV) OVERALL SERVICE DELIVERY PERFORMANCE IN TERMS OF THE TOP LAYER SDBIP

It must be noted that the Top Layer SDBIP contains 32 KPI's of which 13 does not fall into the reporting period. The table below reflects the top layer SDBIP dashboard of overall performance of the respective Departments from 1 June 2019 to 31 December 2019.

### IDP Strategic objectives and budget

The following tables illustrate the Municipality's IDP and SDBIP linked strategic objectives in terms of the budget for the period ending 31 December 2019.

### Strategic objectives and Revenue budget

Strategic Objective	Budget	Actual revenue as at 31 December 2019	% Spent
	R	2'000	Budget Year +1 2020/21
To promote sustainable integrated development through social and spatial integration that eradicates the apartheid legacy	222	11	5.18%
To promote the general standard of living	6749	1219	18,07%
To provide quality, affordable and sustainable services on an equitable basis	55 229	15784	28,58%

# 2019/20

To maintain financial viability and sustainability through prudent expenditure, and sound financial systems	13 548	5 361	39,57%
To commit to the continuous improvement of human skills and resources to deliver effective services	1 123	15	1,30%
To enhance participatory democracy	25 538	16 229	63,82%
Total revenue (including capital transfers and contributions)	102 409	38 688	0

## Strategic objectives and Operating expenditure

Strategic Objective	Budget	Actual revenue as at 31 December 2019	% Spent
	R	2'000	Budget Year +1 2020/21
To promote sustainable integrated development through social and spatial integration that eradicates the apartheid legacy	812	267	32,93
To promote the general standard of living	15 886	5 432	34,19
To provide quality, affordable and sustainable services on an equitable basis	37 520	17 294	46,09
To maintain financial viability and sustainability through prudent expenditure, and sound financial systems	12 940	4 452	34,41
To commit to the continuous improvement of human skills and resources to deliver effective services	1 220	40	3,27
To enhance participatory democracy	7 898	3 275	41,47
Total expenditure	76 276	30 761	-

### Strategic objectives and capital budget expenditure

Strategic Objective	Budget	Actual revenue as at 31 December 2019	% Spent
	R	2'000	Budget Year +1 2020/21
To promote sustainable integrated development through social and spatial integration that eradicates the apartheid legacy	1	-	0
To promote the general standard of living		-	0
To provide quality, affordable and sustainable services on an equitable basis	20 631	1 380	6,69
To maintain financial viability and sustainability through prudent expenditure, and sound financial systems	-	-	0
To commit to the continuous improvement of human skills and resources to deliver effective services	-	-	0
To enhance participatory democracy	1 500	8	0,51
Total capital expenditure	22 131	1 388	-

The information on the variance in terms of income, operational and capital expenditure has been detailed elsewhere in the report.

### 3.2 SUMMARY AND CHALLENGES

Early indications are that the performance against the output and goals of the Service Delivery Budget Implementation Plan (SDBIP) are on track, with remedial actions implemented in cases of under-performance. This include the installation of a telemetry system for improved water demand and the purchase and installation of pre-paid water meters. Funding for the latter was approved in December via the Department of Local Government. The Municipality embarked on a door-to-door leak detection and repair campaign to address this short coming. It must also be noted that "unaccounted" water losses include unmetered water to transitional areas, water to our parks and sport fields, etc. This, however remains a worry-some matter and the Municipality increased their awareness and loss reduction campaigns. The Municipality also installed meters to the parks and sport fields and open ablutions to provide a better account of water used.

The Municipality will spend their skills development budget in the third and fourth quarter as several staff members are enrolled in training programs commencing in February of 2020.

The challenges with capital under-expenditure has been discussed at length elsewhere in this report. Capital expenditure is monitored at top management meetings on a monthly basis. Challenges will have to be resolved through inter-governmental engagements.

Notwithstanding the afore-mentioned challenges, the municipality met 73.687% of its KPI's.

During the 2018/19 audit conducted by the Auditor-General various aspects of non-compliance with regards to performance were highlighted in the management report issued at the end of the audit. The findings included, *inter* alia, the following:

Audit Finding 2018/19 (Performance Information)	Management Response/ Status Quo
Refer to the annual performance report on pages 92 to 96	The KPI definitions and targets for 2019/20 will be
for information on the achievement of planned targets for	reviewed in the adjusted Top Layer SDBIP review
the year.	in February 2020.
No performance contracts for lower level staff: The municipality limited its performance contracting to only the municipal manager and managers directly reporting to the municipal manager. Agreements were only entered into with the municipal manager and managers directly reporting to the municipal manager. This issue was raised in the prior years' management report.	This is due to capacity constraints. The Municipality has since cascaded performance management down to the lowest level in respect of permanent staff.

Source: Auditor General (AG) Report 2018/19

### To eliminate the audit findings, we have implemented the following corrective measures:

- The municipality will continuously and adequately review and monitor compliance with applicable laws and regulations. Sufficient oversight will be exercised to ensure that the definitions of the indicators are included in the IDP, SDBIP and eventually into the Annual Performance Report. Furthermore, management will ensure that the FMPPI principals are adhered to and that adequate reviews take place to ensure that the annual performance report is complete.
- Management already allocated a staff member to provide support towards performance management. This official will be tasked to compile a monitoring checklist for all submissions to Treasury and where information is physically delivered a confirmation document should be completed to ensure that proof of that delivery is obtained and filed properly and where an official from Treasury is present when predetermined documents are approved in council meetings for submission to Treasury, a request will be made for the official to acknowledge receipt of the documents.
- Management should ensure the regular and adequate reviews of the accuracy
  of source evidence used to measure indicators and the SDBIP will form part of the
  formal monthly management meetings. Included in the reviewed Standard
  Operating Procedures provision has been made for the KPI owner to sign off on all
  submitted POE's to improve correctness and oversight.

It has been noted that an adjustment budget will be required and said adjustment budget to be tabled in February 2020 will necessitate an adjustment of the Top Layer SDBIP, with the necessary motivation where key performance indicator targets require adjustment as a result of the Adjustments Budget or overview of the set targets and KPI definitions.

### 3. FINANCIAL PERFORMANCE ANALYSIS

### **CASH MANAGEMENT**

- Revenue is collected when it is due and banked promptly;
- Payments are made, including transfers, no earlier than necessary, with due regard for efficient, effective and economical programme delivery and the municipality's normal terms for account payments;
- Debtors are perused with appropriate sensitivity to ensure that amounts receivable by the municipality are collected and banked promptly;
- The municipality's cash flow requirements are accurately forecasted;
- The Municipality avoids locking up money unnecessarily and inefficiently, manages inventories to the minimum level necessary for efficient and effective programme delivery, and alienates surplus or under-utilized assets in terms of the asset management policy;
- Bank reconciliation is performed on a monthly basis to detect any unauthorized entries; and
- Dishonored cheques are followed up immediately;
- Duties are separated to minimize the possibility of fraud.

Please refer to **Annexure 8 Table C7** for more detail on cash receipts and payments for the period.

### **OUTSTANDING DEBTORS**

Attached as **Annexure 8 Table SC3** is a summary of outstanding debtors as on 31 December 2019, analyzing age of debtors by income source, number of days outstanding and type of consumer. With a limited rates and services base, as indicated below Prince Albert Municipality has to do everything in its power to collect outstanding debt.

### Indigent profile as on 31 December 2019

Number of households that receive free basic water	1167
Quantum of free basic water per household	6kl
Total kl of water consumed by indigents	
Number of households that receive free basic electricity	1167

# 2019/20

Number of households that receive FBE (prepaid)	1167
Number of households that receive FBE (Eskom prepaid)	314
Number of households that receive FBE (conventional)	4
Number of households that receive FBE (Eskom conventional)	0
Quantum of free electricity per household	50KWH
Conventional electricity consumed	1716270 KWH
Prepaid electricity issued	2073470 KWH
Number of households receiving free basic sanitation	1167
Number of households receiving free basic removal	1167
Number of new indigent subsidies approved during the	
month	4
Number of indigent subsidies stopped during the month	0

In the following tables a summary is provided on outstanding debt as on 31 December 2019.

Outstanding D	<u>ebtors</u>				
Services	Current	90 Days	120 Days	Total	Movement %
Other	-50 112,86	364 000,49	731 694,14	1 045 581,77	6,90%
Rates	89 093,44	112 950,89	1 169 361,61	1 371 405,94	9,06%

Sewerage	162 855,88	467 358,87	2 674 183,97	3 304 398,72	21,82%
Refuse	136 710,44	270 792,55	1 924 983,74	2 332 486,73	15,40%
Water	358 011,27	722 466,00	4 308 367,24	5 388 844,51	35,58%
TOTAAL	1 343 840,48	2 304 239,84	11 496 846,59	15 144 926,91	100,00%
Payment %	8,87%	15,21%	75,91%	100,00%	

Outstanding Debtors per Geographical area	a (as a percentage of the total outstanding o	debtors)
Prince Albert	7 038 723	46,48%
Leeu-Gamka	6 341 556	41,87%
Klaarstroom	1 025 133	6,77%
Welgemoed	48 947	0,32%
Farming	690 567	4,56%
Total	15 144 926	100,00%

_	<u> </u>	Payment % per service	ce (Collection rate)		
Service		Levied	Paid	% Payment	Increase (Decrease)
Rates		2 114 301	1 532 981	72,51%	581 320
Electricity		3 210 779	3 181 490	99,09%	29 289
Sewerage		1 900 018	1 178 011	62,00%	722 008
Refuse		1 010 108	744 745	73,73%	265 363
Water		2 018 320	1 536 274	76,12%	482 045
Total		10 253 525	8 173 501	79,71%	2 080 024

Although, approximately **75.91%** (R11 496 847) of the total outstanding debtors of **R 15 144 927** is more than 120 days outstanding, the Administration institute the following procedures to collect outstanding amounts:

- Implemented an approved credit control and debt collection policy;
- Cessation of electricity on a monthly basis;
- Contract workers were appointed in the Eskom service delivery areas, but with extremely limited success.
- Handing over of outstanding rates and taxes to our lawyers for collection.
- Provision is made for bad debts
- The Municipality embarked on a campaign to write off bad debt and though some made use of this opportunity in Prince Albert, the response from the Eskom service delivery areas are basically non-existent.

The fact that three of the towns in the Prince Albert municipal jurisdiction is in the Eskom service delivery areas, severely hampers effective debt collection. This has to be addressed at national level if the sustainability of local government is to improve.

The effect of the drought on our Karoo region is felt by the fact that the agricultural community is struggling to honour their commitments and less money is available within the communities.

The Municipality resolved to extend the debt write off support plan in 2020 to alleviate the severe effects connected to the drought.

The Municipality has a significant number of residents receiving indigent support as can be seen in the information below. While this poverty support makes a significant impact on the quality of life of our residents, it also showcases the challenge with debt collection and a struggling economy where service delivery must be balanced with affordability.

### 4. ADJUSTMENTS BUDGET

Section 72(3) of the MFMA further states that the accounting officer must, as part of the review:

- Make recommendations as to whether an adjustment budget is necessary and
- Recommend revised projections for revenue and expenditure to the extent that this
  may be necessary.

Regulation 23 of the Municipal Budget and Reporting Regulations provides, *inter alia* for the following:

"An adjustment budget may be tabled in the Municipal Council at any time after the Midyear Budget and Performance Assessment has been tabled in the Council, but not later than 28 February of each year. Furthermore, except under certain circumstances only one adjustment budget may be tabled in Council during a financial year." Due to the late receipt of the roll-over approvals on grant funding and the urgent need to spend the money as part of the Municipality's capital roll out plan, an adjustment budget was already done in December 2019. From the content of this report an additional adjustment budget will be recommended for approval in February 2020. The Top Layer SDBIP will have to be adjusted accordingly.

### 5. ANNUAL REPORT

The Annual Report of the 2018/19 financial year is covered in a separate report to Council and will be tabled in February 2020.

As prescribed in section 72(1((a)(iii)) of the MFMA the Accounting officer must assess the performance of the municipality in the first 6 months taking into account the past year's Annual Report, and progress on resolving the problems identified in the Annual Report. The draft Annual Report for 2018/19 was tabled to Council on 13 December 2019 and advertised for public comment until 17 January 2020. The MPAC will deliberate on the public input received and the content on 28 January 2020 before a recommendation is sent to Council.

With reference to the challenges identified in the Annual Report, the continued drought in the Prince Albert area still negatively impacts sustainable service delivery, quality of life and the local economy. Close collaboration with the Department of Local Government, the AGES consulting engineers and the Department of Water Affairs ensured that the Municipality could continue to provide water security to their community. Future development of water resources should however be prioritized as well as determining the development limit in terms of resources for the respective towns and communities.

Whilst it is noted that Prince Albert is the town in the Western Cape with the cheapest services this in itself poses a high risk to the Municipality and communities they serve as the tariffs do not include future maintenance and development to provide in the needs of our community. The aged infrastructure in terms of roads, electricity, water and sewerage is an

### 2019/20

ever-growing risk. Municipalities' very seldom have sufficient funding to address their asset maintenance sufficiently. Maintenance depreciation of assets are not cash-backed and this will undermine sustainable service delivery. Prince Albert Municipality will have to prioritize this risk in future budgets.

With an unqualified audit without matters, Prince Albert Municipality can boast with a clean and accountable administration and Council, staff and all partners should be commended in this respect – especially taking into account the capacity constraints of the Municipality.

The Municipality understands that we must find more effective, economic and efficient ways to do things, without compromising on service delivery quality. The Municipality will thus embark on the development of standard operational procedures in the second semester to reach these goals while improving accountability.

The compliance burden on municipalities remain to high and an area of concern. Efforts must be made to reduce red tape and reporting just for the sake of reporting, while service delivery is left on the back burner. The Municipality will thus continue their efforts to place their community and service delivery at the forefront.

A more detailed oversight on the annual report will be tabled to Council in a separate report in February 2020.

### 6. RECOMMENDATIONS

- (i) That the report in terms of Section 11(4)(a), 52(d), 54(1)(f), 66 and 72 of the MFMA report be noted by Council;
- (ii) That senior management ensure that votes are not overspend and where necessary, savings are identified on time;
- (iii) That the Municipal Manager be requested to closely monitor the plans put in place to improve the levels of capital expenditure to ensure that the spending target is achieved;
- (iv) That it be noted that an adjustment budget and subsequent change in the Top Layer SDBIP be undertaken and a separate report be tabled to Council before the end of February 2020.
- (v) That Council takes note that the Adjustment Budget will be tabled to Council in February 2020.
- (vi) That Council take note of the attached Schedules to the Section 72 report.
- (vii) That Council take note of the signed quality certificate.

#### 2019/20 SDBIP Report Q2

# Financial sustainability & Development

Ref	Directorate	Top Layer KPI Ref	Strategic Objective	National KPA	Municipal KPA	KPI	Unit of Measurement	Performance Standard	Source of Evidence	Quarterly Target	Actual achieved	Colour Coding	Corrective measures
TL3	Office of the Municipal Manager	The % of the Municipality's capital budget spent on capital projects identified in the IDP, measured as the Total actual Year to Date (YTD) Capital Expenditure/ Total Approved Annual or Adjusted Capital Budget x 100	To maintain financial viability & sustainability through prudent expenditure, and sound financial systems	Municipal Financial Viability and Management	Financial sustainability & Development	The % of the Municipality's capital budget spent on capital projects identified in the IDP, measured as the Total actual Year to Date (YTD) Capital Expenditure/ Total Approved Annual or Adjusted Capital Budget x 100	The percentage (%) of a municipality's Annual or Adjusted capital budget spent on capital projects identified in the IDP for the 2019/20 financial year	Report submitted before 25 January 2020	Annual Financial Statements & Annual Report	25%	6,2%		Target not achieved due to projects not commencing on time

#### 2019/20

TL20	Financial Services	Maintain a Year to Date (YTD) debtor's payment percentage of 85%, excluding traffic services	To maintain financial viability & sustainability through prudent expenditure, and sound financial systems	Municipal Financial Viability and Management	Financial sustainability & development	Maintain a Year to Date (YTD) debtor's payment percentage of 85% excluding traffic services	Payment percentage (%) of debtors over 12 months rolling period, excluding traffic services	Payment percentage (%) of debtors over 12 months rolling period, excluding traffic services	Debtors Report	85%	79,7%		Debt collectors have been appointed and are working to improve debt collection on a continuous basis
------	-----------------------	--	---	---	---	---	--	--	-------------------	-----	-------	--	--

Institutional development & transformation

TL10	Corporate & Community Services	The % of the Municipality's training budget spent, measured as (Total Actual Training Expenditure/Approved Training Budget x 100)	To commit to continues improvement of human skills and resources to deliver effective services	Municipal Transformation and Institutional Development	Institutional development & transformation	The % of the Municipality's training budget spent, measured as (Total Actual Training Expenditure/Approved Training Budget x 100)	% of training budget spend as at 30 June 2020	100 % expenditure by June 2020	Financial System expenditure report	50%	18,16%		Training needs to commence earlier. This will be monitored going forward
------	--------------------------------------	--	--	--	---	--	---	--------------------------------------	--	-----	--------	--	--

Local Economic Development

TL25	Infrastructure Services	The number of temporary jobs created through the municipality's local economic development EPWP projects, measured by the number of people temporary appointed in the EPWP programmes for 2019/20	To stimulate, strengthen and improve the economy for sustainable growth	Local Economic Development	Economic Development	The number of temporary jobs created through the municipality's local economic development EPWP projects, measured by the number of people temporary appointed in the EPWP programmes for 2019/20	Number of people temporary appointed in the EPWP programs	The number of temporary jobs created through the municipality's local economic development EPWP projects, measured by the number of people temporary appointed in the EPWP programmes for 2019/20	EPWP statistics submitted (Project registration Forms, Beneficiary List and Attendance Registers)	20	69	EPWP workers are appointed on a six- month contract basis, most of the opportunities are thus created in the first and third quarter.
TL32	Development & Strategic Support	Implementation of the Local Economic Development Strategy	To stimulate, strengthen and improve the economy for sustainable growth	Local Economic Development	Economic development	Implementation of the Local Economic Development Strategy	Number of LED interventions/ activities / programmes implemented	One project per quarter to be implemented	Minutes of meetings, attendance register, project report signed off by Municipal Manager	1	1	Target achieved

#### Basic Service Delivery

TL12	Infrastructure Services	Number of Residential account holders connected to the municipal electrical infrastructure network (credit and prepaid electrical metering)	To provide quality, affordable and sustainable services on an equitable basis	Basic Service Delivery	Basic service delivery & infrastructure development	Number of Residential account holders connected to the municipal electrical infrastructure network (credit and prepaid electrical metering)	# of Residential account holders connected to the municipal electrical infrastructure network (credit and prepaid electrical metering)	Number of Residential account holders connected to the municipal electrical infrastructure network (credit and prepaid electrical metering)	Billing data of financial system	2110	2604	Target over achieved
TL13	Infrastructure Services	Provide 50kwh free basic electricity to registered indigent account holders connected to the municipal and Eskom electrical infrastructure network	To provide quality, affordable and sustainable services on an equitable basis	Basic Service Delivery	Basic service delivery & infrastructure development	Provide 50kwh free basic electricity to registered indigent account holders connected to the municipal and Eskom electrical infrastructure network	No of indigent account holders receiving free basic electricity which are connected to the municipal and Eskom electrical infrastructure network	No of indigent account holders receiving free basic electricity which are connected to the municipal and Eskom electrical infrastructure network	Billing data of Financial system	1100	1167	

TL14	Infrastructure Services	Provide refuse removal, refuse dumps and solid waste disposal to households within the municipal area	To provide quality, affordable and sustainable services on an equitable basis	Basic Service Delivery	Basic service delivery & infrastructure development	Provide refuse removal, refuse dumps and solid waste disposal to all account holders within the municipal area	Number of account holders for which refuse is removed at least once a week	Number of account holders for which refuse is removed at least once a week	Billing data of financial system	2480	2755	Target over achieved
TL15	Infrastructure Services	Provision of free basic refuse removal, refuse dumps and solid waste disposal to registered indigent account holders	To provide quality, affordable and sustainable services on an equitable basis	Basic Service Delivery	Basic service delivery & infrastructure development	Provision of free basic refuse removal, refuse dumps and solid waste disposal to registered indigent account holders	No of indigent account holders receiving free basic refuse removal monthly	No of indigent account holders receiving free basic refuse removal monthly	Billing data of Financial system	1100	1167	

TL16	Infrastructure Services	Provision of clean piped water to formal residential properties which are connected to the municipal water infrastructure network. [10]	To provide quality, affordable and sustainable services on an equitable basis	Basic Service Delivery	Basic service delivery & infrastructure development	Provision of clean piped water to formal residential properties which are connected to the municipal water infrastructure network	Number of formal residential properties that meet agreed service standards for piped water	Number of formal residential properties that meet agreed service standards for piped water	Billing data of financial system, and water quality results because you refer to a standard	2554	2821	Target over achieved
TL17	Infrastructure Services	Provide 6kl free basic water to registered indigent account holders per month	To provide quality, affordable and sustainable services on an equitable basis	Basic Service Delivery	Basic service delivery & infrastructure development	Provide 6kl free basic water to registered indigent account holders per month	No of registered indigent account holders receiving 6kl of free water.	No of registered indigent account holders receiving 6kl of free water.	Billing data of Financial system	1100	1167	

TL18	Infrastructure Services	Provision of sanitation services to properties which are connected to the municipal waste water (sanitation/sewerage) network & are billed for sewerage service, irrespective of the number of water closets (toilets). [12]	To provide quality, affordable and sustainable services on an equitable basis	Basic Service Delivery	Basic service delivery & infrastructure development	Provision of sanitation services to properties which are connected to the municipal waste water (sanitation/sewerage) network & are billed for sewerage service, irrespective of the number of water closets (toilets)	No of residential properties which are billed for sewerage in accordance to the financial system.
