3.2 Consolidated performance

3.2.1 Measured against annual budget (originally approved)

Revenue by Source

Annual Rates, Refuse Removal and Sewerage were levied in July 2019 for the 2019/2020 financial year. The amounts for rates and service charges do not represent cash received but levied amounts.

Total revenue received to date was R 26 874 242

The following is highlighted with regards to the variances in Revenue:

Services charges: A YTD variance of 69% indicate an unknown increase in service charges. A further investigation will be launched to ensure that the amounts are in fact correct and to determine the reason as to why the material difference.

Interest earned – external investments: A positive YTD variance of 39%. More money has been invested on short term investments which interest have been received

Fines, penalties and forfeits: A negative YTD variance of 41%, this relate to the provision that is being journalled through every month that has a negative effect on SC9. The provision therefore will be moved to general expenses on SC9 to better reflect the actual income of fines. Remember that these amounts reflected are levied fines.

Agency Service: A negative YTD variance of 5%. Corrected as per previously reported.

Transfers and subsidies: A negative YTD variance of 34% are due to slow spending of grant funding. This is normal in that the financial year just started

Other materials: A positive YTD budget variance of 33% is reflected indicating and increase in spending habits. The particular expense line will be monitored to ensure overspending does not occur although immaterial.

Contracted services: A negative YTD budget variance of 51% is reflected as a result of certain measures that was put in place to ensure better management of contracts however it should be noted that the appointment of certain contractor took longer than anticipated and the expenditure for this category will increase over the remainder of the financial year.
